An ordinance, was adopted conforming to the law recently passed by the Legislature, authorizing the issue of bonds on which to raise money for recruiting purposes. This ordinance repeals the \$3,000,000 ordinance passed at the last neeting of the Supervisors, which upon examination was found in several points at variance with the State law. The bill of Sheriff Lynch for the quarter ending Dec. 31, amounting to \$32,875,54, was allowed at at \$4,209,89, the Board contending that the difference—for fees on conviction of prisoners—was not a county charge.

The Committee on County Officers reported in favor of paying the salary of a clerk to the Superintendent of Unsafe Building Inspection, but Mr. Purdy objected that the appropriation was unauthorized. Mr. Dayts favored the report but Mr. Exy opposed it, as no officer had a right to employ a clerk without the consent of the Board. By unanimous consent, Mr. Shook was allowed to crase his name, and, after debate, the report was recommitted. Mr. Struker at this time, having received unanimous consent, introduced a resolution directing the Controller to pay the bill of James M. Macgregor, amounting to Sak, for clerk hire in his bureau. Further debate cased, several members contending that the report concerning said till had part and the list of equine stars, and silver manc—has deen did to the list of equine stars, and is much admired. The Wednesday and Saturday matine's continue as popular as ever with the little felks; and Mr. Lent may justly pride himself on having organized a singularly elegant, comfortable, and well-ordered circus. This bill came up in the Senate last evening where it operetts, comedy, and comedicits, are made to fourth, to fiv elsewhere during a fifth, to suffer hunger, would be considered, but it was not reached.

The name was occupied solely with the consideration of the militia organization of the State as manipulated by Gov. Seymour and his military family under the law of 1802. Settlements were made by a large number of members showing that the whole system has been utterly procifitude to further the purposes of disjoint men; that high commands had been given to hitter, procifitude to further the purposes of disjoint men; that high commands had been given to hitter, procifitude to further the purposes of disjoint men; that high commands had been given to hitter, procifitude to further the purposes of disjoint men; that high commands had been given to hitter, procifitude to further the purposes of disjoint men; that high commands had been given to hitter, procifitude to further the purpose of disjoint men; that high commands had been given to hitter, procifitude to further the fashion of Coden—"What next—and next." The bill of fare tion; that good, loyal officers had time and again been removed to make way for disreptable Copperbeads, and in short that the militia had been organized so far as it hay in the power of Gov. Seymour and his advisers as if designed to give at the proper moment military aid and support to the Revels.

The whole matter will be reviewed in the Assembly this evening a special session having been ordered in the General Appropriation bill, which contains an item of \$200,000 to enlarge this beautiful organization. It is not likely that the Assembly will get beyond this one item to-night, and a stormy time is anticipated.

Siacara Ship Canal.

One of the gigantic schemes before the present Legislature is the Nigara Ship Canal, which has been mentioned before in this correspondence. The title of the bill sufficiently explains it object, and it creates a great corporation, with \$6,000,000 capital, and maning among its directors many of the prominent business men of the city of New-York, who, it is believed, have not, in every instance, been consulted as to this use of their land. It was brought on the stage by Mossra Beeks, Clarke and Waiton, rather feebly assisted by Miss names. The bill has not developed much strength on the floor of the Assembly, though stoutly advocated by the representatives from the counties bordering on Lake Ontation and the St. Lawrence; but the impression among those not attracted to its apport by local interests is that the canal would divert trade from our canals and the entire State. It would have received its quictus teday, but its advocates talked against time till the hour of adjournment, and thus prevented a vote.

No. 410 6th-av., New-York, Dec. 3, 1803. I was deaf for several years, and hearing of the great cures ing was entirely restored after a short treatment. I was also suffering from chronic catarrh, of which I was also cured by the skillful treatment of Dr. Von Eisenberg. I do but justice to the Doctor by stating that in treating me he displayed that skill and knowledge which have already procured for him such a deserved reputation, and that the principles which direct his system of curing Deafness and Cotarrh are such as to render success certain in my opinion. Many months have passed since Dr. Von Eisenberg restored my hearing, and it continue O. HOPKINS.

with a continual duliness in my head, a tightness across my thest a weight over my eyes, which were weak, watery, and very painful. My nostrils were constantly obstructed with a voice, often attended with a fullness of my throat, great soreness, and a continual dropping. Dr. Von Eisenberg has cured ne of all these disagreeable sufferings. I may indeed, say that I feel a new life. The treatment of Dr. Von Eisenberg is as skillful as it is successful. It is, in my opinion, impossible to overrate the benefit I have received at his hands. I heartly ecommend any one suffering like myself to place themselves under Dr. Von Eisenberg's care, with a certainty of being W. S. HUTCHINS, speedily cured.
